

Jareyatham Masong

Computer Science Student | Software Developer Intern

TOL. 094-078-4870 EMAIL : jareyatham.work@gmail.com GITHUB : github.com/Jareyatham-mas

PROFILE SUMMARY

Computer Science student with hands-on experience in software testing, API testing, and full-stack web development. Experienced in designing test cases, validating REST APIs using Postman, and developing automation workflows with n8n. Seeking a Software Tester Internship where I can contribute to software quality while expanding my QA and automation testing expertise.

PROJECT

VerdeCart E-Commerce Platform (Full-Stack Developer & Tester)

- Developed a full-stack e-commerce web application using C#, ASP.NET MVC, JavaScript, AJAX, and SQL Server following MVC architecture
- Designed and implemented core features including user authentication, product catalog, shopping cart, wishlist, and order processing workflow
- Built admin and seller modules to manage products, promotions, orders, and user interactions within the system
- Implemented business logic for promotional campaigns such as discount codes, free shipping conditions, and limited-time offers
- Managed database operations including CRUD functionality, relational data modeling, and transaction handling
- Tested and validated API endpoints using Postman, ensuring correct HTTP methods, request/response handling, and error management
- Designed and executed test cases covering functionality, input validation, user flow, and database consistency

Oreo Status Assistant — Personal Real-Time Status & Chat PWA (Full-Stack Developer)

- Built a mobile-first Progressive Web App using React (Vite), Tailwind CSS, and Firebase Realtime Database for real-time status sharing and two-way communication
- Designed a public/private dual-page architecture with live status updates, auto-generated messages, in-app reactions, and a rate-limited mini chat supporting text, images, and GIFs
- Implemented client-side image compression and Giphy API integration to optimize media uploads without paid cloud storage
- Configured Firebase Security Rules to enforce data validation and access control without a full authentication system
- Developed serverless push notification infrastructure using Firebase Cloud Messaging, Firebase Admin SDK, and Netlify Functions to deliver real-time alerts even when the app is closed
- Deployed and maintained a multi-site PWA setup on Netlify with environment-based build configuration, custom manifests, and CI/CD via GitHub
- Debugged cross-platform issues including Service Worker caching, iOS PWA installability, and Firebase authentication errors across production environments

WORK EXPERIENCE MAY 2026

TEACHING ASSISTANT(TA)

Kasetsart University, Bangkok

- Assisted participants during the “AI-Powered Automation using n8n” workshop.
- Provided basic guidance and support in using n8n for workflow automation.
- Helped participants troubleshoot issues during hands-on activities.

EDUCATION

Computer Science and Software Development (2023 – Present)

Sripatum University : GPX: 3.35 (6 Semesters)

Mathematics-science program (2020 – 2023)

Kannasootsuksalai School : GPX: 3.31

TECHNICAL SKILLS

Programming & Web Development

- JavaScript, Python, C#, SQL
- HTML, CSS, React
- Node.js, Express.js
- ASP.NET MVC
- REST API & API Integration

Database & Tools

- MySQL, SQL Server, PostgreSQL, MongoDB
- Git / GitHub
- Docker, n8n
- Trello

Testing & Software Quality

- API Testing with Postman / Swagger
- Test Case & Test Scenario Design
- User Flow & Input Validation Testing
- Bug Reporting

LANGUAGE

Thai — Native
English — Intermediate
